Profile

A recent graduate of Computer Engineering from Mersin University with hands-on experience in mobile application development, UI design, and cloud-based solutions. Specialized in Flutter and React ecosystems with back-end development knowledge using Firebase and MongoDB. Worked in real-world projects both individually and in teams. Enthusiastic about artificial intelligence, robotics, and IoT technologies.

Experience

Mobile App Developer – Oppenza (Heranında Yemek)

Mar 2025 – Apr 2025 · Ankara

- Led the UI development using Flutter and Dart end-to-end.
- Implemented stable navigation flows using GoRouter & Navigator API.
- Built reusable widget structures and improved code modularity.
- Wrote comprehensive documentation and applied clean coding principles.

Mobile Developer – Eterna Teknoloji Inc.

Oct 2024 – Nov 2024 · Mersin

- Developed cross-platform apps using WebView and Flutter.
- Managed Play Store and App Store publishing processes.
- Actively contributed to Figma design implementations.

Intern – Arti ve Arti Technology (Cybersecurity)

Jul 2024 – Aug 2024 · Istanbul

- Developed an interactive cybersecurity learning app with Firebase Authentication, Firestore & Storage.
- Designed modules including slides, quizzes, rank systems, and AI-powered learning support.

Intern – Sim Bilisim Technologies

Jul 2023 – Aug 2023 · Mersin

- Worked on an ERP mobile app with modules for vehicle tracking, expense management, and employee monitoring.
- Implemented different login flows for managers and staff using Flutter.

Education

Bachelor’s Degree – Computer Engineering

Mersin University · Sep 2019 – Feb 2025

Skills

- Flutter
- Python
- EDA
- Firebase
- Front-End
- IoT
- Logic Design
- Mobile Development
- Robotics

Languages

- English – Fluent
- Turkish – Native

Certificates & Licenses

- Agile 101 – Apr 2025 · Active
- A2 Motorcycle License – Sep 2022 · Active
